

SOCIETY OF PIPING ENGINEERS & DESIGNERS

Professional Piping Designer Level II, III, IV Certification Application

Directions: The Professional Piping Designer Application is designed to ascertain the applicant's knowledge and experience in the Piping Industry. **All portions of the application must be completed in their entirety to be reviewed as a candidate for certification.** Certification will only be granted upon completion of the application and receipt of a passing grade of appropriate level exam, as follows:

Level I	Level I Exam
Level II	Level II Exam plus minimum five years experience
Level III	Level III Exam plus minimum eight years experience
Level IV	Level IV Exam plus minimum twenty years experience

***Please note that a current resume and three professional references are required and must be attached to your completed application with application fee payment.
